# **SITUATION SUMMARY**

## **Labor Day weekend BART Transbay Tube Closure**

- BART will shut down train service between Oakland and San Francisco over the Labor Day weekend, September 5-7, so workers can rebuild a section of track near the Transbay Tube.
- Nearly 100 buses will continuously shuttle passengers between 19th Street BART Station in Oakland and San Francisco's Temporary Transbay Terminal.
- Additional information regarding the modified BART schedule can be accessed here:  
<https://www.bart.gov/news/articles/2015/news20150803-0>

## **Cal OES Activation Status**

- The State Operations Center (SOC) is activated at Level 1.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 1.
- The Southern REOC is activated at Level 1.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

- Another round of winds is expected, particularly for the Tahoe and Donner areas. Wind gusts may be around 45 mph. Choppy lake conditions, fire weather concerns, and blowing dust are possible.
- Freezing temperatures in the Sierras are possible going into Labor Day weekend with impacts likely for gardeners, campers, and for individuals attending Burning Man. The coldest Sierra valleys could be in the mid to upper 20s with western Nevada valleys in the mid 30s. If you plan on being outdoors this weekend overnight prepare for the potential of freezing conditions.

## **El Niño Outlook for California**

The National Weather Service (NWS) and the Department of Water Resources (DWR) have provided a brief video describing the El Niño weather expected later in the season and what it could mean for California.

The best chance for showers will be Fri across Nrn CA with amounts up to 0.25 inches possible.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Near normal temperatures will continue this week as a low pressure trough persists across the west coast. A few light showers or isolated thunderstorms are possible over the interior on Friday.

#### **Medford Weather:**

An unusually cold upper low will bring the coolest air of the season. Rain with this system today should remain unlikely. Activity will increase Friday with the approach of the deep upper low from the north. Fairly strong short wave energy is forecast to dig through the base of the trough over northern California Friday afternoon and evening. With the cold air aloft, numerous showers and a slight chance for thunderstorms with some localized moderate rains are in store.

#### **Reno Weather:**

Breezy conditions will continue through the remainder of the work week with the strongest winds expected on Friday afternoon and evening. This will result in hazardous boating conditions, areas of blowing dust, and periods of near critical fire weather conditions. A cold front will push through northeast California Friday, bringing well below normal temperatures to start the holiday weekend.

#### **San Francisco Weather:**

Dry weather will continue through next week. Temperatures will continue to cool through Saturday as an upper level trough digs southward into the Pacific Northwest. Warmer and drier conditions return over the weekend and early next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Below average temperatures through Saturday can be expected as a weather system arrives this week. Showers and thunderstorms are possible across the northern portion of the state Friday into Saturday morning. Warmer weather returns Sunday into next week.

#### **Hanford Weather:**

A cooling trend will take place over the central California interior today and Friday with temperatures averaging several degrees below normal through Saturday. Winds will be gusty through and below the Kern County mountain passes and on the west side of the San Joaquin Valley through the end of the week. Temperatures will warm to seasonable levels by Labor Day. Otherwise, dry weather is expected through the holiday weekend.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A broad upper trough will bring cooler conditions with night through morning low clouds for coast and valleys through late this week. There will be a warming trend early next week as high pressure aloft builds in over the southern portion of the state bringing high temperatures back to normal for this time of year.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

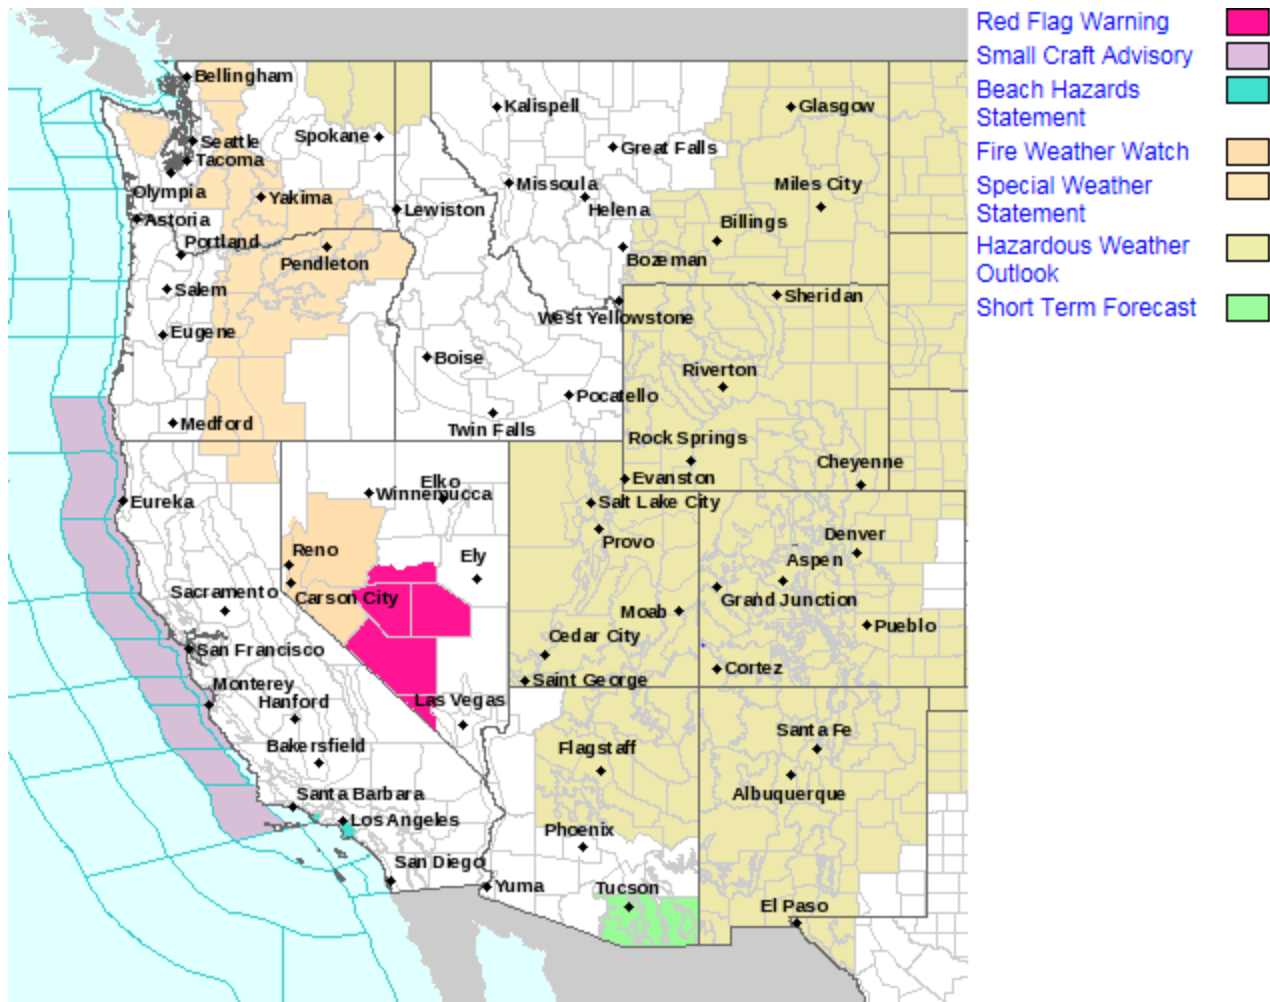

Cool weather will continue through Saturday as a trough of low pressure continues over California. Coastal clouds will be present nights and mornings west of the mountains and locally gusty winds on the desert mountain slopes and foothills. The trough will weaken next week bringing warmer weather to finish the holiday weekend. Less extensive coastal clouds and seasonal weather will continue next week.

#### **Southeast California Weather:**

Increasing southwesterly flow aloft is expected to pull tropical moisture from the eastern Pacific back northward. Somewhat drier air will have reduced shower and thunderstorm chances through Sunday. A temporary return to more southerly flow will then bring another upswing in monsoon activity returns early next week before a return of drier air reduces thunderstorm activity during the middle part of next week

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
